Volume 55

Effects of retinoic acid on the <i>in vivo</i> growth of human neuroblastoma cells E. Abemayor, B. Chang and N. Sidell (Los Angeles, CA)	1-5
The structural basis for the mutagenicity of aristolochic acid W. Pfau, B.L. Pool-Zobel, C.-W. von der Lieth and M. Wiessler (Heidelberg, Germany)	7-11
Scanning tunneling microscopy imaging of the tumour associated antigenic 20 amino acid human polymorphic epithelial mucin core peptide fragment M.C. Davies, D.E. Jackson, M.R. Price and S.J.B. Tendler (Nottingham, U.K.)	13-16
Activity of various amphiphilic agents in reversing multidrug resistance of L 1210 cells E.W. Pommerenke, H. Osswald, E.W. Hahn and M. Volm (Heidelberg, Germany)	17-23
Inhibition of rat hepatic glutathione S-transferase placental form positive foci development by concomitant administration of antioxidants to carcinogen-treated rats M. Asamoto, Y. Shichino, H. Tsuda and N. Ito (Nagoya, Japan)	25-29
Neoplastic transformation and DNA damage of mouse mammary epithelial cells by <i>N</i> -methyl- <i>N'</i> -nitrosourea in organ culture C.R. Delp, J.S. Treves and M.R. Banerjee (Lincoln, NE)	31-37
Thymidine enhancement of carboplatin cytotoxicity: <i>in vivo</i> studies in normal B6D2 F1 mice J.D. Cohen and H.I. Robins (Madison, WI)	39-44
Modulation by estrogen of the incidence of diethylnitrosamine-induced gamma-glutamyltranspeptidase-positive foci in rat liver G. Taton, P. Servais and P. Galand (Brussels, Belgium)	45-51
Effects of naturally occurring antioxidants on combined 1,2-dimethylhydrazine- and 1-methyl-1-nitroso-urea-initiated carcinogenesis in F344 male rats K. Imaida, M. Hirose, S. Yamaguchi, S. Takahashi and N. Ito (Nagoya, Japan)	53-59
Liver genotoxic activity of an epoxide derivative of the hepatocarcinogenic β -blocker DL-ZAMI 1305 M. Presta, R. Chiesa, F. Legati, B. Ginelli, S. Tenca and G. Ragnotti (Brescia, Italy)	61-66
Synergistic effect of mammary tumors on hexachlorobenzene-induced porphyria in rats R. Wainstok de Calmanovici, A.C. Cochón, C. Aldonatti, R. Bergoc and L.C. San Martín de Viala (Buenos Aires, Argentina)	67-73
Inhibitory effects of fucoxanthin, a natural carotenoid, on <i>N</i> -myc expression and cell cycle progression in human malignant tumor cells J. Okuzumi, H. Nishino, M. Murakoshi, A. Iwashima, Y. Tanaka, T. Yamane, Y. Fujita and T. Takahashi (Kyoto and Kagoshima, Japan)	75-81
Effect of cigarette smoke inhalation on benzo[a]pyrene-induced lung carcinogenesis in vitamin A deficiency in the rat M.P. Gupta, K.L. Khanduja, I.B. Koul and R.R. Sharma (Chandigarh, India)	83-88
Steady-state mRNA expression for growth factors in DMBA-induced rat mammary tumors B.A. Ruggeri, D.M. Klurfeld, D. Kritchevsky and K.K. Frick (Philadelphia, PA)	89-93
Effects of nutritional folate deficiency on the adhesive properties of murine melanoma cells R.F. Branda and P.B. Tracy (Burlington, VT)	95-102
Berberine-induced morphologic differentiation and down-regulation of c-Ki-ras2 protooncogene expression in human teratocarcinoma cells K.S.S. Chang, C. Gao and L-C. Wang (Bethesda, MD and Taiwan, Republic of China)	103-108
Enhanced lung colonization and tumorigenicity of fused cells isolated from primary MCA tumors M.B. Fortuna, M.J. Dewey and P. Furmanski (Denver CO and Columbia, SC)	109-114
Chlorambucil carcinogenesis in BALB/c mice A. Cavaliere, N. Pietropaoli, P.F. Alberti and R. Vitali (Perugia, Italy)	115-120

Comparative histopathological findings in the pancreas of cigarette smokers and non-smokers	
T. Tomioka, A. Andren-Sandberg, H. Fujii, H. Egami, Y. Takiyama and P.M. Pour (Lund, Sweden and Omaha, NE)	121-128
Effects of bile acids on development of pepsinogen-altered pyloric glands in rats	
S. Yamaguchi, M. Tatematsu, C. Furihata, K. Takaba and N. Ito (Nagoya and Tokyo, Japan)	129-134
Inhibition of mouse skin tumor promotion by Adriamycin and daunomycin in combination with verapamil or palmcarnitine	
K. Satyamoorthy and J.-P. Perchellet (Manhattan, KS)	135-142
Effect of bis(bilato)-1,2-cyclohexanediammineplatinum(II) complexes on lung metastasis of B16-F10 melanoma cells in mice	
M. Maeda, T. Suga, N. Takasuka, A. Hoshi and T. Sasaki (Tokyo, Japan)	143-147
1 α -Hydroxyvitamin D ₃ suppresses colonic tumorigenesis induced by repetitive intrarectal injection of N-methyl-N-nitrosourea in rats	
A. Kawaura, A. Takahashi, N. Tanida, M. Oda, K. Sawada, Y. Sawada, S. Maekawa and T. Shimoyama (Hyogo, Japan)	149-152
O ⁶ -Alkylguanine-DNA alkyltransferase activity in human brain tumors	
G. Frosina, O. Rossi, G. Arena, S.L. Gentile, E. Bruzzone and A. Abbondandolo (Genova, Italy)	153-158
Additive interaction between tamoxifen and rifampicin in human biliary tract carcinoma cells	
C.M.L. West, S.J. Reeves and W. Brough (Manchester, U.K.)	159-163
Effect of breast cyst fluid on oestrogen 17-oxidoreductase activity in MCF-7 breast cancer cells	
L.C. Lai, N.G. Coldham, S. Islam, M.J. Reed, M.W. Ghilchik, and V.H.T. James (London, U.K.)	165-169
pSV3neo transfection and radiosensitivity of human cancer cell lines	
C.N. Parris, J.R.W. Masters and M.H.L. Green (London and Brighton, U.K.)	171-175
Bronchiolo-alveolar regions in adenocarcinoma arising from canine segmental bronchus	
A.A.W. Ten Have-Opbroek, W.G. Hammon ¹ and J.R. Benfield (Leiden, The Netherlands and Davis, CA)	177-182
Immunotargeting approach utilizing production of oxygen free radicals	
H. Mashiba and K. Matsunaga (Fukuoka, Japan)	183-188
Rectal epithelial proliferation in women recovered from breast cancer	
P. Rozen, Z. Fireman, N. Fine, A. Chetrit and G. Zajicek (Tel Aviv and Jerusalem, Israel)	189-194
Role of DT diaphorase in the cytotoxicity of menadione and 4-nitroquinoline-1-oxide in cultured mammalian fibroblastic cells	
H. Tsuda (Kanagawa, Japan)	195-199
Base sequences of highly repetitive components in nuclear DNAs from rat liver and rat-ascites hepatoma	
Y. Ikeda, K. Nakamura, N. Iwakami, Y. Hibino and N. Sugano (Toyama, Japan)	201-208
Solasodine glycosides. In vitro preferential cytotoxicity for human cancer cells	
B. Daunter and B.E. Cham (Queensland, Australia)	209-220
Solasodine glycosides. Selective cytotoxicity for cancer cells and inhibition of cytotoxicity by rhamnose in mice with sarcoma 180	
B.E. Cham and B. Daunter (Queensland, Australia)	221-225
Increased multiplicity of lung adenomas in five generations of mice treated with benz(a)pyrene when pregnant	
V.S. Turusov, T.V. Nikonova, Yu.D. Parfenov (Moscow, U.S.S.R.)	227-231
Effects of 2-phenyl-1,4-benzoquinone and 2,5-dihydroxybiphenyl on two-stage mouse skin carcinogenesis	
H. Sato, K. Toyoda, N. Takamura, F. Furukawa, R. Hasegawa, M. Fukuoka, K. Imaida, M. Takahashi and Y. Hayashi (Tokyo and Nagoya, Japan)	233-238
Azaserine-induced pancreatic carcinogenesis in rats: promotion by a diet rich in saturated fat and inhibition by a standard laboratory chow	
M.J. Appel, A. van Garderen-Hoetmer and R.A. Woutersen (Zeist, The Netherlands)	239-248
Variant philadelphia translocations in chronic myeloid leukemia: correlation with cancer breakpoints, fragile sites and oncogenes	
S.A. Stopera, M. Ray, D. Riordan, N. Christie and D. Wickstrom (Winnipeg, Canada)	249-253
Subject Index Volume 55	255-257
Author Index Volume 55	259-260
Contents Volume 55	261-262
